SUPPLEMENTARY INFORMATION: The New Jersey Department of Transportation, that owns and operates the S37 Bridge, has requested a temporary deviation from the current operating regulations to continue performing a maintenance and repair project on the bridge that commenced at 8 a.m. on December 1, 2015 and was scheduled to cease at 8 p.m. on March 31, 2016. The bridge is a bascule draw bridge and has a vertical clearance in the closed position of 30 feet above mean high water.

The current operating schedule as set out in 33 CFR 117.733(c) allows the bridge to remain in the closed-to-navigation position from 8 a.m. December 1, 2015 until 8 p.m. March 31, 2016. Under this temporary deviation, the bridge will continue to remain in the closed-to-navigation position from 8 p.m. on March 31, 2016 to 8 p.m. on April 17, 2016.

The Barnegat Bay on the New Jersey Intracoastal Waterway is used by a variety of vessels including small government and public vessels, small commercial vessels, and recreational vessels. The Coast Guard has carefully

considered the nature and volume of vessel traffic on the waterway in publishing this temporary deviation.

Vessels able to safely pass through the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transit to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.
